2024 Quarter 2 Promotions

(Updated version launched on June 1, 2024)

General Terms and Conditions

1. The promotional offers (the "Promotions") are applicable to policies issued in Hong Kong and Macau only.
2. In order for customers to enjoy the Promotions, the insurance application must be submitted and received by YF Life Insurance International Ltd. ("the Company") during the Promotion Period for each respective promotion, and the application must be approved, with the initial premium payment and required insurance levy(ies) (applicable only to policies issued in Hong Kong) paid on or before the approval deadline for each respective promotion.
3. Unless otherwise specified below, as in clause 15, the premium discount amount will be equal to the annualized premium (including the premium for the basic plan and the supplementary benefits attached) of each eligible policy multiplied by the applicable premium discount rate for the policy. For calculation of annualized premium, please refer to the table below. If the premium discount amount is not an integer, the amount will be rounded off to the nearest two decimal places. The insurance levy will not be applied when calculating the premium discount.

Payment Mode	Annualized Premium Calculation Method
Monthly Payment	= monthly premium x 12
Quarterly Payment	= quarterly premium x 4

Payment Mode	Annualized Premium Calculation Method
Half-yearly Payment	= half-yearly premium x 2
Annual Payment	= annual premium x 1

4. The premium discount is offered to each eligible policy; and where a customer has applied for more than one eligible policy, all such eligible policies shall qualify for the premium discount. However, the annualized premiums of these policies will not be aggregated when calculating the premium discount rate.
5. The First-Year premium discount amount will be used to settle the initial premium payment of the first policy year of the eligible policy. The Second-Year/ Third-Year/ Fourth-Year/ Fifth-Year premium discount amounts (if applicable) will be used to settle the renewal premium due at the beginning of the second/ third/ fourth / fifth policy year of the eligible policy. If the premium discount amount exceeds the modal premium due to be paid, any remaining balance of the premium discount for the eligible policy will be applied to subsequent modal premium(s) due to be paid, until that balance is exhausted.
6. Eligible policies must be in force when the premium discount is applied. The policyowner will not be eligible for the premium discount if the approved policy is terminated for any reason, whereupon any unapplied premium discount amount (if applicable) will be forfeited. In case of a premium refund, any part of the premium payments that is offset by the premium discount may under no circumstances be counted as premium paid and will not be included in the refund amount.
7. If the policyowner requests a change in the premium or annualized premium (including but not limited to change of premium mode, reduced sum assured, and change of plan level) for the eligible policy within the first, second (if applicable), third (if applicable), fourth (if applicable), and fifth (if applicable) policy years, the First-Year, Second-Year, Third-Year, Fourth-Year, and Fifth-Year premium discount (if applicable) and premium discount amounts to which the policyowner is entitled will be recalculated based on the revised premium or annualized premium. The Company reserves the right to request the policyowner to pay back the difference between the respective premium discount amounts.
 - If the eligible policy is an HBP which allows policy changes resulting in a change of premium at any time, then, even if a policyowner changes the premium within the policy year, the Second-Year premium discount amount will be calculated based on the 13th-month premium)
 - If the eligible policy is a PIS and the policyowner exercises the right to split the policy on the first policy anniversary date, the premium discount and premium discount amounts for the second year and third year (if applicable) for both the original policy and the split policy(ies) will be recalculated based on the revised annualized premium. If the policyowner exercises the right to split the policy on the second policy anniversary date, the premium discount and premium discount amounts for the third year (if applicable) for both the original policy and the split policy(ies) will be recalculated based on the revised annualized premium.
8. The premium discount offers under the Promotions will form part of the policy contract upon the respective policy and/or the respective supplementary benefit (if applicable) being issued if the requirements of the premium discount offers under the terms and conditions of the Promotions are satisfactorily fulfilled.
9. The Company reserves the right to accept or reject any application for the insurance plan based on the information provided by the customer as the proposed policyowner and/ or the proposed life insured during the application.
10. For an eligible policy issued in Hong Kong, the insurance levy on the insurance premium to be collected by the Insurance Authority is calculated based on the premium after deducting the premium discount amount.
