

Prosperous Infinity Saver (PIS) Preferential Interest Rate on Future Premium Deposits

Promotion Period: April 1 to 30, 2025

Customers who successfully apply for the "Prosperous Infinity Saver (PIS)" during the Promotion Period, and prepay the premium in one installment with their policy application, may enjoy the following promotion:

Premium Payment Term	Preferential Interest Rate on Future Premium Deposits for the 1 st policy year	
	USD Policy(ies)	HKD / MOP / RMB Policy(ies)
2-Year	6%	4%
5-Year	8% [^]	-- [※]

* Customer must select annual premium payment mode and premium prepayment option upon policy application

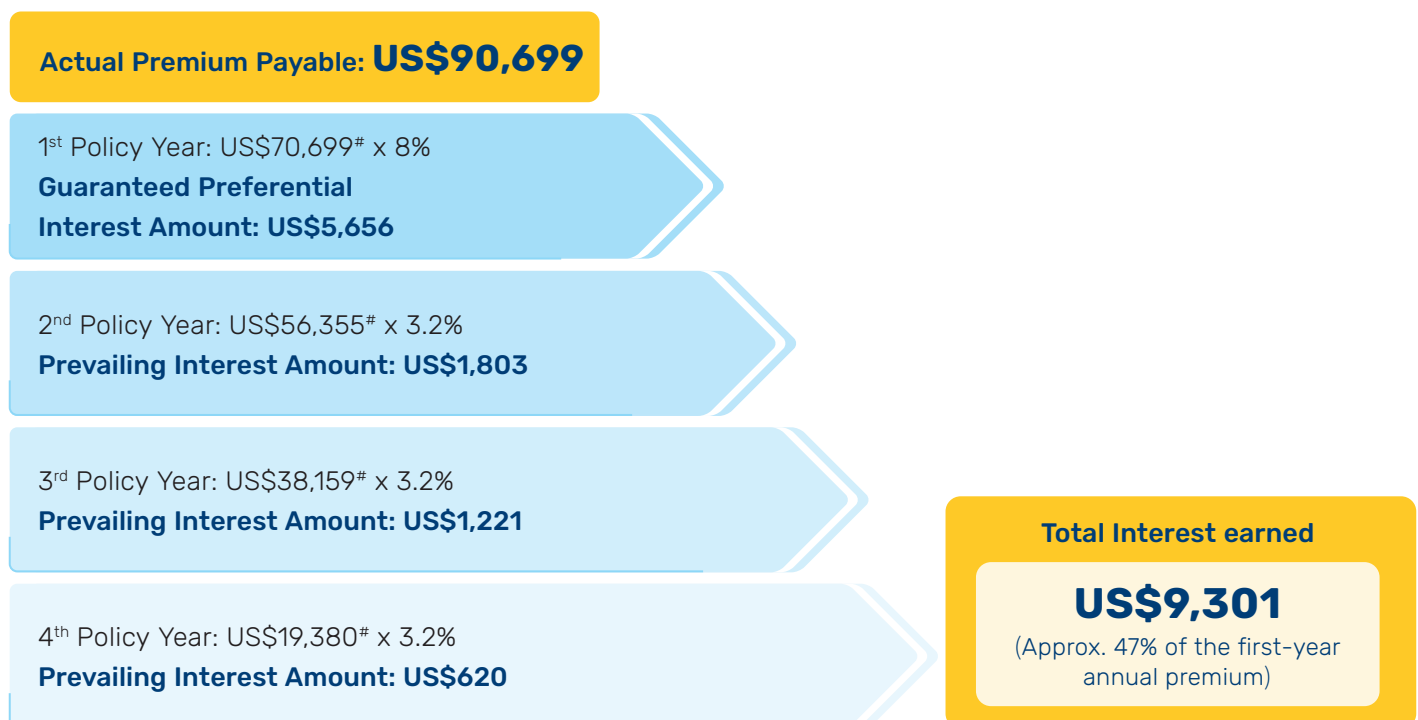

[^] From the second to fourth policy years, the current prevailing interest rate of 3.2% p.a. will apply to Future Premium Deposits for 5-year premium payment term USD policies.

[※] HKD, MOP, or RMB policies with a 5-year premium payment term are not eligible for a preferential interest rate on future premium deposits; however, the prevailing interest rate shall apply to such future premium deposits. The current prevailing interest rate is 2.2% p.a. for RMB policies and 2% p.a. for HKD or MOP policies.

Remarks: The current prevailing interest rates specified above are non-guaranteed. If the current prevailing interest rates increase or decrease before a policy is issued, the required prepaid premium will be adjusted accordingly. However, once the policy is issued, the prevailing interest rate will be fixed.

Illustrative Example

Marcus has enrolled in a "Prosperous Infinity Saver (PIS)" for his newborn son Karl, aged 0, as financial preparation for his future education costs. Marcus chose a 5-year premium payment term with annual premium of US\$20,000, and upon application paid the total 5-year premiums in a lump sum of US\$100,000. Through the premium prepayment arrangement, Marcus was able to pay less premium upfront, and the amount of premium paid less is equal to the relevant interest on the prepaid premiums. In other words, initially Marcus was able to **pay US\$9,301 less in premiums.**

[#] Future premiums deposited (deducting the premium due for basic plan) and accumulated interest for the corresponding policy year

The above illustrative example does not include any insurance levy and is calculated based on the guaranteed preferential interest rate of 8% p.a. for the first policy year and the prevailing interest rate of 3.2% p.a. for the second to fourth policy years. The figures in the above illustrative example are rounded to the nearest integer.
