The following change(s) in investment choice(s) relate(s) to the “Global InvestPlus” and “Premier-Choice Series” plans, including Premier-Choice ULife InvestPlan, Premier-Choice Flexi, Premier-Choice Flexi Plus, Premier-Choice InvestPlan and Premier-Choice Plus InvestPlan.

Implementation of Flexibility to Invest Directly in China via the Shanghai – Hong Kong Stock Connect (“Stock Connect”) for the Underlying Funds of the Investment Choices

- *First State Asian Equity Plus Fund - Class I (dis) (FSAEU)*
- *First State China Growth Fund - Class I (FSCHU)*
- *Stewart Investors Global Emerging Markets Leaders Fund - Class I (FSEMU)**
- *First State Greater China Growth Fund - Class I (FSGCU)*

**This investment choice is available in Premier-Choice Series only and has been closed for new subscription.*

As advised by First State Investments, changes will be made to the prospectus (and any locally required offering documents) of the underlying funds of the investment choices above to allow them to invest in eligible securities listed on the Shanghai Stock Exchange (“SSE”) via Stock Connect.

Each underlying fund’s maximum exposure to China A Shares (whether via Stock Connect, QFII quota (as defined below) or otherwise) is 25% of the net asset value of the underlying fund.

Stock Connect is a stock-trading and clearing linked program established between the SSE and the Hong Kong Exchanges and Clearing Limited which allows foreign investors (such as the underlying funds) to have access to the Chinese market through trading in a range of eligible securities listed on the SSE. Currently, certain underlying funds have access to China indirectly via investing in other investment funds and/or via the qualified foreign institutional investor (QFII) quota held by the sub-investment manager of the underlying funds. Investment via Stock Connect will now also allow the relevant underlying funds access to a greater range of investments in China with potentially higher liquidity.

The above change constitutes an expansion of the types of underlying assets in which the underlying funds may invest within their existing investment policy, but will not result in a material change to the investment policies of the underlying funds. The underlying funds will continue to be managed in the same manner. The changes do not result in a material change in the risk profile or asset type of the underlying funds and other than normal sub-custody and brokerages charges related to Stock Connect trading, will not result in any change in the level of fees and expenses currently borne by the underlying funds and/or their investors.

The changes will take effect on or around December 16, 2015.

You should refer to the relevant offering documents and the notice to shareholders of the underlying fund(s) of the above investment choice(s), which are made available by MassMutual Asia Ltd. upon request, or visit our website (www.massmutualasia.com) to carefully read the details of the relevant documents in relation to the above change(s).

If you have selected the above investment choice(s) under your insurance policy and if for any reason you wish to change to other investment choice(s), you may switch your investment choice(s) to other available investment choice(s) provided by your policy. Currently, no switching charge and bid-offer spread apply to the investment choices.
