The investment objective and policy of the Global Income Real Estate Securities Fund will also be clarified to state that less than 30% of the NAV of the Global Income Real Estate Securities Fund may be invested in debt securities which are unrated and/or whose credit rating is below investment grade.

These clarifications reflect existing practice and will have no adverse impact on the way the Global Income Real Estate Securities Fund is currently managed nor result in any change to the risk profile of the Global Income Real Estate Securities Fund.

This clarification will have no impact on the way the Euro Bond Fund is currently managed.

7. For Shareholders of the Invesco Emerging Market Corporate Bond Fund (the "Emerging Market Corporate Bond Fund") only- change and clarification of the investment objective and policy and change of the method used to calculate the global exposure

To align the Emerging Market Corporate Bond Fund to its broader investment universe, the investment objective and policy of the Emerging Market Corporate Bond Fund will be changed to include Hong Kong and Singapore in the list of emerging markets which the investment manager has defined for the purposes of the investment objective and policy.

The definition of emerging markets included in the investment objective and policy of the Emerging Market Corporate Bond Fund will read:

* This Fund is not authorised by the SFC and therefore is not available for sale to the public in Hong Kong.

“For the purposes of the Fund, the investment manager has defined the emerging markets as all markets in the countries in the world other than (i) those members of the European Union that the investment manager regards as developed countries, (ii) United States of America, (iii) Canada, (iv) Japan, (v) Australia, (vi) New Zealand, (vii) Norway and (viii) Switzerland.”

In addition, the investment objective and policy of the Emerging Market Corporate Bond Fund will be clarified to state that the Emerging Market Corporate Bond Fund may invest up to 20% of its NAV in asset-backed securities (ABS).

This clarification reflects existing practice and will not result in any change to the risk profile of the Emerging Market Corporate Bond Fund.

Finally, the methodology used to calculate global exposure will be amended from relative to absolute Value at Risk (VaR) approach. The absolute VaR approach is more appropriate due to the asset allocation of the Emerging Market Corporate Bond Fund.

8. For Shareholders of the Invesco Emerging Market Quantitative Equity Fund* (the “Emerging Market Quantitative Equity Fund”) only - change of the investment objective and policy and change of name

Invesco Group continually ensures that the Invesco funds meet investor needs and achieve the best outcome for Shareholders. The current investment policy of the Emerging Market Quantitative Equity Fund is constrained with the reference benchmark MSCI Emerging markets index, and to be able to respond to the structural shifts in the emerging markets, exploit opportunities and manage volatility, the Directors believe that it is in the best interest of the Shareholders to adopt a more unconstrained investment approach.

To this end, the following sentence will be removed from the current investment policy: “Beta, industry and country allocation as well as style exposures relative to the benchmark are minimised to focus on the stock specific excess returns that are delivered by the stock selection process”.

In addition, the Emerging Market Quantitative Equity Fund will be renamed the Invesco Emerging Market Structured Equity Fund* to be more in line with the new investment policy.

A rebalancing of the portfolio will be required as part of this change. Any costs associated with such rebalancing of the portfolio will be borne by the Emerging Market Quantitative Equity Fund.

9. For Shareholders of the Invesco Active Multi-Sector Credit Fund* (the “Active Multi-Sector Credit Fund”) only - clarification of the investment objective and policy

The investment objective and policy of the Active Multi-Sector Credit Fund will be clarified with regard to the investment that may be made in asset-backed securities/mortgage-backed securities (ABS and MBS). * This Fund is not authorised by the SFC and therefore is not available for sale to the public in Hong Kong.

10. For Shareholders of the Invesco Asia Infrastructure Fund (the “Asia Infrastructure Fund”) only - clarification of the investment objective and policy

The investment objective and policy of the Asia Infrastructure Fund will be clarified to state that less than 30% of the Asia Infrastructure Fund’s NAV may be invested in debt securities.

11. For Shareholders of the Invesco Emerging Local Currencies Debt Fund (the “Emerging Local Currencies Debt Fund”) only - clarification of the investment objective and policy

The investment objective and policy of the Emerging Local Currencies Debt Fund will be clarified to state that the Emerging Local Currencies Debt Fund may invest up to 20% of its NAV in asset-backed securities (ABS).

12. Shortening of the distribution cycle for quarterly, semi-annual and annual distribution Share classes only

From the distribution in February 2018, the annual distribution cycle will be shortened; the payments will be made on the 11th of the month following the distribution date (instead of the 21st of that month). If such day is not a Business Day, payments will be made on the next Business Day.

13. Restructure of Section 8 (Risk Warnings)

In order to clarify the risks that may apply to the sub-funds, Section 8 (Risk Warnings) has been restructured into two parts:

- One part relates to the risks linked to the investments. In that part, a chart has been included in order to address the main identified risks at the date of the Prospectus that may apply to each Fund. Please kindly note that it does not purport to provide a complete explanation of all the risks associated with acquiring and holding Shares in the relevant Fund, however all key risks are disclosed and Shareholders are advised to refer to Section 8 of the Prospectus in full for more detailed explanations of such risks so as to make an informed judgment of the risks associated with such an investment. The risks not indicated for a particular Fund may, however, still apply to some extent to that Fund at various times, and not every risk applicable to an investment in a Fund may be shown. Notwithstanding the risks displayed in the chart, each Fund will continue to comply at all times with the Investment Restrictions detailed in Section 7 (including the Additional Restrictions in Section 7.5) as well as with the further restrictions in Appendix A of the Prospectus.

- A second part relates to risks associated with specific Share classes, such as Hedged Share classes, Portfolio Hedged Share classes, Fixed Distribution Share classes, Gross Income Share classes, etc.

14. Restructure of Section 11 (Taxation)

In order to clarify the tax aspects related to the Fund or the Shareholders, it has been decided to restructure Section 11 (Taxation).

One part will cover the Taxation in Luxembourg impacting the SICAV. There are no specific changes in relation to the Luxembourg taxation.

- In Section 5 (Dealing Information), the dealing arrangement has been updated by adding information disclosure regarding the applications for subscription, switch, transfer or redemption in certain jurisdictions. Moreover, the disclosure has been enhanced to state that authorised agents, including but not limited to the bank(s) where the collection accounts are opened, are additional parties to reject applications or charge interest in the event of late payment. Please note that such update was made to reflect existing practice and there is no change to existing dealing arrangements.
- In Section 5.3.2 (renumbered Section 5.4.2) (Possible restrictions on redemptions), it has been clarified that if the SICAV applies the limitation of the redemptions on a particular business day, any deferred redemption requests will be treated pro-rata with other redemption requests on each subsequent dealing day without priority. This change was also subject to an amendment of the articles of incorporation of the SICAV which was approved by the Shareholders during a duly convened extraordinary general meeting of Shareholders and became effective on 30 September 2016. In addition, some provisions on the requests for redemption of Shares and the possibility for the SICAV to redeem the Shareholder's entire holding have been removed to reflect the existing practice.

- Section 6.2 (Calculation of assets and liabilities) has been clarified to reflect existing practice with regard to the valuation of the securities listed on a recognised stock exchange or dealt on any other regulated market.
- Section 6.3 (Subscription and redemption prices) has been renamed (Dealing Prices) and has been reworded. It has also been clarified that, for the avoidance of doubt, there is no difference between the subscription and redemption price on each day and both are dealt at the net asset value per Share, which reflects the existing practice. In addition, it has been clarified that net asset value per Shares may be calculated up to four decimal places, which reflects the existing practice.
- In Section 7, it has been decided to move the investment restrictions for sub-funds authorised in certain countries, such as Taiwan, Hong Kong, Germany under a separate section, a Section 7.5 (Additional Restrictions). The investment restrictions for some funds registered in France and in Chile have also been added.
- In Section 7.1 V., further to a FAQ issued by the CSSF on 8 December 2015, it has been clarified that the limitation on investments in the same issuer should apply at the Fund level rather than at the SICAV level. This clarification has no impact on how the Funds are currently managed or on their risk profile.
- A new Section 9.2.4 (Conflicts of Interests) has been included to reflect *inter alia* the SICAV's discretion to pay rebate and commission to third parties.
- Further to the UCITS V Directive, a new Section 9.2.5 (Remuneration Policies) has been added to confirm that the Management Company is subject to a remuneration policy. Such remuneration policy is available on the website of the Management Company and can be obtained free of charge, at the registered office of the Management Company.

This change has no impact on the Shareholders.
- In Section 9.2.7 (renumbered Section 9.2.9) (Soft Commissions), the information disclosure in relation to the cash commission rebate received by broker or dealer has been enhanced.
- In Section 9.3 (Service Agents’ Fees), it has been clarified that the remaining amount of the service agent fee (after deduction of payments) may be retained by the Management Company, in such capacity as it is in charge of appointing and overseeing key administrative service providers, and/or shared with affiliates of Invesco Group or such persons that the Management Company may determine at its discretion.
- In Section 9.3 (Other Expenses), the information disclosure about the formation expenses and unamortised expenses has been updated as these expenses are borne by the Management Company and not charged to the relevant Fund.

- The Specific Risks disclosed under each sub-fund in the Appendix A have been removed and a cross-reference to the chart disclosed in Section 8 (Risk Warnings) has been included at the beginning of the Appendix A.
- In Appendix A, Religare Invesco Asset Management Company Private Limited, which provides non-binding investment advice to the investment manager for Invesco India Bond Fund and Invesco India All-Cap Equity Fund*, has been renamed Invesco Asset Management (India) Private Limited as this entity is now fully owned by the Invesco Group. This change does not prejudice the investors of the relevant Funds in any way.
- In Appendix A, the profile of typical investors of each Fund has been updated. In particular, the investment horizon has been modified to reflect the risk/reward profile of each Fund and the Shareholders’ tolerance for volatility has been reviewed. The numeric investment horizon has been replaced by descriptive measures (long term, medium and long term, medium term and short term) which is more in line with the industry practice.
- In Appendix A, for all the Funds the information disclosure in relation to the overall exposure of the Funds using commitment approach has been deleted. Such removal does not affect how the Funds measure their global exposure. In respect of the Invesco Emerging Local Currencies Debt Fund and the Invesco Emerging Market Corporate Bond Fund which may use derivatives extensively for investment purposes and are registered in both Hong Kong and Taiwan, specific regulatory requirements on the use of derivatives apply and are set out in the Prospectus (including the Hong Kong Supplement and the relevant Product Key Facts Statements where it is disclosed that the maximum level of leverage of these Funds under the commitment approach has been reduced from 100% of the net asset value to 40% of the net asset value for each of the above two Funds). The purpose of this change is to reflect the updated position on the use of derivatives to better reflect the actual maximum. The derivative strategies with respect to the Invesco Emerging Local Currencies Debt Fund and the Invesco Emerging Market Corporate Bond Fund have also been elaborated in the Product Key Facts Statements and Hong Kong Supplement to clarify that the long and short active financial derivative positions implemented by each of these two Funds may not be correlated with the underlying securities positions held by each of these two Funds (i.e. debt securities).

* This Fund is not authorised by the SFC and therefore is not available for sale to the public in Hong Kong.

- In Appendix A, the benchmark used to calculate the global exposure of the Invesco Pan European Small Cap Equity Fund, the Invesco Japanese Value Equity Fund and the Invesco Japanese Equity Advantage Fund have been updated further to the name change of such indices.
- In Appendix A, the benchmark used to calculate the global exposure of the Invesco Asian Bond Fund and the Invesco Asia Balanced Fund was changed on the 29th of April 2016 as a result of the transfer of activities from HSBC to Markit iBoxx. For the avoidance of doubt, these changes have no impact on the way the Invesco Asia Balanced Fund and the Invesco Asian Bond Fund are currently managed and does not result in any change to their risk profile. In addition, there is no impact on the fee level/cost in managing the Invesco Asia Balanced Fund and the Invesco Asian Bond Fund.

Kindly note that, the expected level of leverage of the Invesco Strategic Income Fund* and the Invesco Unconstrained Bond Fund* have increased respectively, from 225% and 200% to 350%. For the avoidance of doubt, this update does not change the way the relevant Funds use the derivatives and does not change their risk profile.
- In the Appendix A, it has been clarified under the investment objective and policy that, the Invesco Asia Balanced Fund may invest up to 60% of its NAV in debt securities which are unrated and/or whose credit rating is below investment grade. For the avoidance of doubt, this update is a clarification of the existing investment objective and policy applicable to the Invesco Asia Balanced Fund and has no impact on how such Fund is currently managed or on its risk profile.
