The following change(s) in investment choice(s) relate(s) to the “Global Series” and “Premier-Choice Series” plans. The “Global Series” includes Global InvestPlan and Global InvestPlus. The “Premier-Choice Series” includes Premier-Choice ULife InvestPlan, Premier-Choice Flexi, Premier-Choice Flexi Plus, Premier-Choice InvestPlan and Premier-Choice PLUS InvestPlan.

As advised by the board of directors of Aberdeen Global, there will be the following changes to the underlying funds.

1. Change to maturity of eligible bonds for the Underlying Fund of the Investment Choice

- *Aberdeen Global - Asian Local Currency Short Duration Bond Fund "A2" (AGABU)(the “Investment Choice”)*

Currently the investment policy of Aberdeen Global - Asian Local Currency Short Duration Bond Fund (the “Underlying Fund”), the underlying fund of the Investment Choice, is to invest in short duration debt and debt-related securities, which, for the purposes of the Underlying Fund, have a maturity of three years or less.

With effect from 16 July 2018, in order to expand the investment universe of the Underlying Fund, the investment policy will be amended to reflect an increase in the maturity of these securities to up to five years as follows:

“The fund’s investment objective is long term total return to be achieved by investing at least two-thirds of the fund’s assets in local Asian currency denominated debt and debt-related securities having a maturity of up to five years issued by governments, supranational institutions or government-related bodies that are domiciled in Asian countries.”

As a consequence of the above, and with effect from the same date, the Underlying Fund will be renamed as Aberdeen Global – Asian Local Currency Short Term Bond Fund. The new name will bring the Underlying Fund in line with the naming convention of other short term bond funds within Aberdeen Global.

For your information, the above change will have no impact on the investment objective of the Underlying Fund, being long term total return, nor its recommended holding period, being medium term.

Accordingly, the name of the Investment Choice will also be changed to “Aberdeen Global - Asian Local Currency Short Term Bond Fund "A2”” with effect from 16 July 2018.

2. Increase in the exposure to Mainland China securities for the Underlying Fund of the Investment Choice

- *Aberdeen Global - Chinese Equity Fund "A2" (AGCHU)*

Presently the underlying fund of the investment choice above may invest no more than 10% of its net asset value in Mainland China securities.

With effect from 16 July 2018, in order to bring more flexibility to the management of the underlying fund, the investment policy of the underlying fund will be amended to reflect an increase in the maximum exposure to Mainland China securities from 10% of the net asset value to 30% of the assets of the underlying fund, as follows:

“The fund may invest up to 30% of its assets in equity and equity-related securities of the above types of issuers listed on PRC stock exchanges or traded on other PRC markets, through available QFII and RQFII quotas, the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme or by any other available means.”

The underlying fund will be subject to risks associated with investment made through a QFII / RQFII regime and risks associated with Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme. When investing in eligible China A-Shares through the Shenzhen-Hong Kong Stock Connect, the underlying fund will also be subject to the risks associated with the Small and Medium Enterprise Board of the Shenzhen Stock Exchange and/or ChiNext Board of the Shenzhen Stock Exchange. Notwithstanding that the foregoing risks are existing risk factors of the underlying fund, the levels of which could reasonably be expected to increase due to an increase in the underlying fund’s intended maximum exposure to Mainland China securities. Please refer to the revised Hong Kong offering documents of the underlying fund for details of these risks.

For your information, the above change will have no impact on the investment objective, being long term total return, nor the recommended holding period of the underlying fund, being long term.

Apart from the changes mentioned above, there are no proposed changes in the operation and/or manner in which the underlying funds are being managed and consequently there are no effects on existing investors. There are no matters/impact arising from the changes mentioned above that may materially prejudice the existing investors’ interests.

The costs and/or expenses incurred in connection with the changes mentioned above are minimal and covered under the effective operating, administrative and servicing expenses and thus will be borne by the relevant underlying funds. The maximum and current levels of fees and expenses (including the effective operating, administrative and servicing expenses) applicable to the underlying funds as described in the Hong Kong offering documents will not change as result of the changes mentioned above.

You should refer to the relevant offering documents and the notice to shareholders of the underlying fund(s) of the above investment choice(s), which are made available by MassMutual Asia Ltd. upon request, or visit our website (www.massmutualasia.com) to carefully read the details of the relevant documents in relation to the above change(s).

If you have selected the above investment choice(s) under your insurance policy and if for any reason you wish to change to other investment choice(s), you may switch your investment choice(s) to other available investment choice(s) provided by your policy.
