- *Equity Asia Ex-Japan Fund BP (BPEA)*
- *Equity China Fund BP (BPEC)*
- *Equity World Emerging Fund BP (BPÉE)*
- *Energy Innovators Fund BP (BPER)*
- *Global Equity Fund BP (BPEQ)*

The underlying funds of the investment choices above will be fully ESG integrated and will comply with the sustainable investment policy set out in the prospectus. Each underlying fund will follow the standard ESG investment criteria and the following paragraph would be added to the investment policy of the underlying funds:

The investment manager applies also BNP PARIBAS ASSET MANAGEMENT’s sustainable investment policy, which takes into account Environmental, Social and Governance (ESG) criteria in the investments of the underlying fund.

Additional specific ESG requirements shall apply to the underlying fund of BPER that the underlying fund will aim at helping or accelerating the transition into a sustainable world by focusing on challenges related to their specific theme of investment.

3. Update of Investment Policy of the Underlying Fund of the Investment Choice

- *Energy Innovators Fund BP (BPER)*

The investment policy of the underlying fund of the investment choice above will be updated according to the change of name of the underlying fund from “Energy Innovators” to “Energy Transition”:

“Abbreviated denomination”

Alternatively, each sub-fund may use the English abbreviated denomination “BNP Paribas” followed by the sub-fund’s name (e.g. “BNP Paribas Aqua” for “BNP Paribas Funds Aqua”).

“ISIN codes”

The ISIN codes for each sub-fund remain unchanged.

“Investment Objective of the Sub-funds”

The investment objective of each sub-fund would be enhanced to provide a more precise disclosure for the current investment practice of the sub-fund. Such disclosure enhancement on investment objective is not a material change to the relevant sub-fund.

II. SUSTAINABLE TRANSFORMATION

“Sustainable investment policy”

Please note that the Company will be fully ESG integrated and sub-funds will comply with the sustainable investment policy as set in the Book 1 of the prospectus as described below:

The Sustainable Investment Policy describes the integration of ESG Analysis and/or ESG Standards (as defined below) into the investment processes applied by the investment managers of each sub-fund. ESG stands for Environmental, Social and Governance; these are three groups of indicators commonly used to assess the level of sustainability of an investment. BNP PARIBAS ASSET MANAGEMENT is committed to have a sustainable approach to its investments. Nonetheless, the extent to which these Standards and Analysis can be applied varies according to the type of sub-fund, asset class, region and instrument used. Furthermore, some sub-funds may apply additional investment guidelines, as described in the Book 2. Consequently, the implementation of this policy will be applied individually across all portfolios.

ESG Standards are integrated in the investment process of each sub-fund. The Standards include respecting: 1) the 10 principles of the UN Nation Global Compact and 2) the BNP PARIBAS ASSET MANAGEMENT sector policies.

The United Nations Global Compact (www.unglobalcompact.org) is a shared framework, recognized worldwide and applicable to all industry sectors. It relies on international conventions in the areas of human rights, labour standards, environmental stewardship and anti-corruption. Those companies that violate one or more of the principles are excluded from the sub-funds’ investments, and those at risk of breaching them are closely monitored, and may also be excluded.

BNP PARIBAS ASSET MANAGEMENT has also defined a series of ESG guidelines relating to investments in sensitive sectors. Companies from these sensitive sectors that do not comply with the minimum principles specified in these guidelines are excluded from the sub-funds’ investments. The sectors concerned include, but are not limited to, palm oil, wood pulp, mining activities, oil sands, tar sands, nuclear, coal-fired power generation, tobacco, controversial weapons and asbestos.

These ESG Standards are communicated to Investment Managers by the Sustainability Centre of BNP PARIBAS ASSET MANAGEMENT.

The ESG Analysis involves the evaluation of the above three non-financial indicators:

- *Environmental: such as energy efficiency, reduction of emissions of greenhouse gases, treatment of waste;*
- *Social: such as respect of human rights and workers’ rights, human resources management (workers’ health and safety, diversity);*
- *Governance: such as Board of Directors independence, managers’ remuneration, respect of minority shareholders rights.*

The way in and the extent to which ESG Analysis, such as ESG scores, is integrated in each investment process is determined by the Investment Manager for each investment process.

Stewardship is an integral and crucial part of sustainable investment, which shall be used to influence companies and the world towards the right path. In this scope, BNP PARIBAS ASSET MANAGEMENT engages on three different dimensions:

- *Company Engagement: the aim is to encourage companies to obtain the highest possible standards of environmental, social and governance responsibility, and to accompany them in this respect.*
- *Voting-Related Engagement: voting at General Meetings is a key component of the Group’s ongoing dialogue with companies and forms an integral part of its investment process.*
- *Public Policy Engagement: BNP PARIBAS ASSET MANAGEMENT believes that companies can benefit from the engagement with policy makers on the development of a regulatory framework that encourages them to achieve high environmental and social standards.*

More information and documents on BNP PARIBAS ASSET MANAGEMENT global sustainability strategy may be found on the website at the following address: <https://www.bnpparibas-am.com/en/our-approach-to-responsibility/as-a-responsible-investor/>.

“ESG integration”

Except for **Equity Indonesia**, **Equity Russia Opportunities**, **Finance Innovators** and **Bond USD**, each sub-fund will follow the standard ESG investment criteria as defined above. The following paragraph would be added to the investment policy of the relevant sub-fund:

The Investment Manager applies also BNP PARIBAS ASSET MANAGEMENT’s Sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria in the investments of the sub-fund.

Additional specific ESG requirements shall apply to the strategies below:

Thematic strategies

The sub-funds (**Aqua**, **Energy Transition** (ex “*Energy Innovators*”), **Global Environment** and **Green Tigers**) will aim at helping or accelerating the transition into a sustainable world by focusing on challenges related to their specific theme of investment.

OTHER CHANGES APPLICABLE TO THE SUB-FUNDS (BOOK II)

EQUITY SUB-FUNDS

“Energy Transition” (ex “Energy Innovators”)

Please note that the investment policy of the sub-fund will be updated according to the change of name of the sub-fund from “Energy Innovators” to **“Energy Transition”**:

| Current Investment Policy | New Investment Policy |
|---|---|
| <p>At all times, this sub-fund invests at least 75% of its assets in equities and/or equity equivalent securities issued by worldwide companies innovating to help meet the future energy requirements of a developing world.</p> <p>The Energy Innovation themes include, but are not limited to (i) reduction in the cost of traditional resource extraction, (ii) enhancement of the ultimate recoverability of traditional resources, (iii) competitiveness and adoption of renewable and alternative energy sources, and (iv) reduction in the structural demand for energy.</p> <p>The remaining portion, namely a maximum of 25% of its assets, may be invested in any other transferable securities, money market instruments, or cash, provided that investments in debt securities of any kind do not exceed 15% of its assets, and up to 10% of its assets may be invested in UCITS or UCIs.</p> | <p>This thematic sub-fund aims at participating in the transition into a sustainable world by focusing on challenges related to energy transition.</p> <p>At all times, this sub-fund invests at least 75% of its assets in equities and/or equity equivalent securities issued by worldwide companies that engage in energy transition.</p> <p>Energy transition themes include, but are not limited to, renewable & transitional energy, energy efficiency, sustainable transport, green building and infrastructure.</p> <p>The remaining portion, namely a maximum of 25% of its assets, may be invested in any other transferable securities, money market instruments, or cash, provided that investments in debt securities of any kind do not exceed 15% of its assets, and up to 10% of its assets may be invested in UCITS or UCIs.</p> |

This change will trigger an investment universe extension. The investment manager will consider extensively the energy connected sectors such as transitional energy, energy efficiency sustainable transport, green building and infrastructure in addition to the renewable and alternative energy sources.

“Europe Dividend” (ex “Sustainable Equity High Dividend Europe”)

Please note that the investment policy of the sub-fund will be updated according as follows:

| Current Investment Policy | New Investment Policy |
