The following change(s) in investment choice(s) relate(s) to the “FLEXI Series” investment plans, including Flexi-Invest Insurance Plan, FLEXI-Education InvestPlan and FLEXI-Annuity Investment Plan.

Management Fee for Connected Underlying Investment Schemes for the Underlying Funds of the Investment Choices

- *Equity Asia ex-Japan Fund BP (BPEA)*
- *Equity China Fund BP (BPEC)*
- *Equity Emerging Fund BP (BPEE)*
- *Energy Transition Fund BP (BPER)*
- *Global Equity Fund BP (BPEQ)*

As advised by the board of directors of BNP Paribas Funds, to standardize the fee structure of products offered by BNP Paribas, there will be a change to management fee for connected underlying investment schemes of the underlying funds of the investment choices above with effect from 6 January 2020.

It is currently disclosed in the Hong Kong Offering Document that the underlying funds would not incur any management fee when the underlying funds invest in units or shares of connected underlying investment schemes which are managed, directly or by delegation, by the same management company or by any other company with which the management company is linked by common management or control, or by a substantial direct or indirect holding (the “Connected Schemes”).

With effect from 6 January 6 2020, the underlying funds would start to incur such indirect management fee of the Connected Schemes managed by the same management company or its affiliates and investors may therefore be exposed to fee doubling. The ongoing charges of the underlying funds may be increased but the impact would not be material. The underlying funds would continue not to incur any subscription or redemption fees for the units or shares of the Connected Schemes.

Nevertheless, the underlying funds may not invest in any underlying schemes which have a management fee exceeding 3% per annum.

There would be no change in other fees level or costs in managing the underlying funds. In addition, the management company would bear the costs or expenses incurred in connection with the change. The change would not materially change the features and overall risk profile of the underlying funds. There would be no change in the operations or the manner in which the underlying funds are being managed. There would be no change in the investment objective or policies of the underlying funds as a result of the change. Further, the change would not materially prejudice the existing investors’ rights of interest.

You should refer to the relevant offering documents and the notice to shareholders of the underlying fund(s) of the above investment choice(s) in relation to the above changes, which are made available by YF Life Insurance International Ltd. upon request.

If you have selected the above investment choice(s) under your insurance policy and if for any reason you wish to change to other investment choice(s), you may switch your investment choice(s) to other available investment choice(s) provided by your policy. Please note that bid-offer spread and switching charge are applicable for switching between investment choices.
