Underlying Fund Name	Invesco Funds II - Invesco Global Value Equity Fund	Invesco Funds - Invesco Global Equity Income Fund
Investment Objective and Strategy	The underlying fund seeks an attractive long-term rate of return, measured in US Dollars, through investment principally in equity securities of companies listed on the world’s stock exchanges. The underlying fund may also invest in preference shares, debt securities convertible into common shares and other equity linked instruments.	The underlying fund aims to generate a rising level of income, together with long-term capital growth, investing primarily in global equities.
